

Email received from Mr S of Grantham following a course of six outplacement coaching sessions.

“Thank you for your assistance in what has been an extremely stressful and difficult period for me and my young family.

Within minutes of meeting Kelly I was immediately struck by her expertise and constructive approach in helping me to help myself go about job hunting all over again- something I hadn't done for many years.

I was particularly impressed with Kelly's extensive knowledge of local companies. Being relatively new to Lincolnshire myself I had very few contacts to turn to for any guidance or advice. Many businesses that Kelly suggested I research for potential jobs, to my surprise, did indeed have suitable vacancies available and I felt much more empowered for having done my 'homework' on them following our outplacement support sessions!

I appreciated every part of the service offered, from making sure my CV 'stood out from the crowd' (and making the most of my relevant expertise), to brushing up on my interview technique.

In such a difficult economic period as this, with so many other candidates applying for a single vacancy, it might have been easy to despair of the whole situation but with Kelly I felt like 'Yes, someone is on my side'! The feedback given to me following our outplacement sessions was both practical and helpful to me - which is to her credit.

The outplacement sessions were brilliant for giving me back my confidence. Within a few weeks I had three interviews lined up and have now been offered a position at a large blue chip company with a comparable salary and package to what I had before. I was also picked out for some temporary work assignments via some local agencies that Kelly had suggested to me. This too has given me such a boost and has helped me gain more useful contacts.

Considering the position I'd originally been in, it was an amazing turnaround in such a relatively short period of time. I would have absolutely no hesitation in recommending 'Kelly Barfoot Mediation Services' to anyone. In fact I've done so already! Thanks Kelly!”

It was our pleasure!
